POWER SHUTDOWN

(Annual Preventive Maintenance of Electrical Switchgear)

M/s. BEST authorities have informed us that they would like to carry out Annual Preventive Maintenance of their electrical H.T. switchgears in TIFR Sub-Station. Annual Maintenance by BEST is mandatory. Power shutdown period as requested by BEST shall also be utilized for carrying out Preventive Maintenance of our internal power distribution network. Since quantum of this preventive maintenance work is very large, it is scheduled in Four parts, on 15.01.2022, 22.01.2022, 29.01.2022 and on 05.02.2022.

1. Power Shut down on 15.01.2022 (Saturday)- shall be from 09.00 hours to 22.00 hours. Only those areas specified in Annexure-1 shall not have electrical power.
2. Power Shut down on 22.01.2022 (Saturday) shall be from 09.00 hours to 22.00 hours. Only those areas specified in Annexure-2 shall not have electrical power.
3. Power Shut down on 29.01.2022 (Saturday) shall be from 09.00 hours to 22.00 hours. Only those areas specified in Annexure-3 shall not have electrical power.
4. Power Shut down on 05.02.2022 (Saturday) shall be from 09.00 hours to 22.00 hours. Only TIFR Emergency Network. Power Light & Equipments Connected to Emergency Network shall not have Electrical Power.
